Logging into your Chromebook

Password: (Last two digits of your student number*) (dash) (month and day of your birthday)

*Your student number is DIFFERENT from the ID# you use for the username. Your student number is printed on your schedule in a box called "student #" in the top left corner.

Example: If my student number is **012345** and my birthday is **May, 6** my password is: **FourFive–0506**

Notice that the last two digits of the campus ID are written as words (not numbers) and the first letter in each word is capitalized.
